## Mark Attendance

All Present Absent

Name	Contact	Email	Status
melanie	96533591	gdgd60358@gmail.com	absent

This screenshot shows the 'Mark Attendance' page for an event. The page has a header with tabs for 'All', 'Present', and 'Absent'. A table lists a single attendee: melanie, contact 96533591, email gdgd60358@gmail.com, and status 'absent'. The background features a photograph of a band performing on stage.

## Mark Attendance

All Present Absent

Name	Contact	Email	Mark Present
melanie	96533591	gdgd60358@gmail.com	<input type="checkbox"/>

Submit

This screenshot shows the same 'Mark Attendance' page, but the 'Absent' tab is now selected. The table includes a new column 'Mark Present' with a checkbox next to the attendee's row. The background image of the band on stage remains the same.

## Mark Attendance

All Present Absent

Name	Contact	Email	Mark Absent

Submit

The screenshot shows a web application interface titled "Mark Attendance". On the left is a sidebar with a logo and various menu options: View Profile, My Profile, Edit Profile, Organiser Function, Add Event, My Organised Events (which is selected and highlighted in blue), Attendee Function, Search Events, and Registered Events. The main content area features a banner image of a band performing on stage at a concert. Overlaid on the banner is a form with tabs for "All", "Present" (which is selected and highlighted in blue), and "Absent". The form contains four input fields labeled "Name", "Contact", "Email", and "Mark Absent", and a "Submit" button. The URL in the browser bar is "localhost:8080/EMS-war/event/markAttendance.xhtml".
